MEGAPOXY (EPOXY) INFORMATION CHART

Megapoxy 69	Megapoxy PM	Megapoxy PF	Megabond
<p>HIGH STRENGTH IMPACT RESISTANT EPOXY ADHESIVE</p> <p>MEGAPOXY 69 is a translucent clear non-sag gel type epoxy. Ideal for structural bonding of Metals to Metals, metals to Concrete and Masonry, assembly of Granite and Marble fabrications, and many other civil engineering applications requiring superior bond strengths.</p> <p>MEGAPOXY 69 is also ideal for structural timber joinery and applications in the marine environment. It retains its high strength after repeated high impact forces.</p> <p>Availability:</p> <p>MEGAPOXY 69 is available in 4 litre and 20 litre kits.</p> <p>MEGAPOXY 69 is also available in liquid gel form and rapid set versions.</p>	<p>GAP FILLING EPOXY PASTE ADHESIVE FOR CIVIL ENGINEERING USE</p> <p>MEGAPOXY PM is specially formulated structural non-sag epoxy filling paste and adhesive. This easy to use two-part epoxy sets after mixing to an extremely durable adhesive ideal for bonding Natural Stone, Concrete, Steel, Timber, Glass and Masonry. Its easy to use 1:1 mixing make it suitable for on site applications.</p> <p>Availability:</p> <p>MEGAPOXY PM is available in 4 litre & 20 litre kits. Shelf life of unopened kits is 2 years minimum. Product should be stored in cool dry store rooms.</p>	<p>RAPID SET EPOXY PASTE ADHESIVE FOR CIVIL ENGINEERING APPLICATIONS</p> <p>MEGAPOXY PF is a rapid set epoxy adhesive which sets in three to five minutes and attains more than half its ultimate strength within 15 minutes of mixing. Megapoxy PF "hardens-as-you-hold-it" for immediate on the spot emergency repairs to tanks, pipes, machinery, Concrete structures etc.</p> <p>Availability:</p> <p>MEGAPOXY PF is available in 4 litre and 20 litre kits.</p>	<p>MEGABOND is a high strength two component epoxy adhesive. Megabond is easy to use and spreads readily with a notched trowel.</p> <p>Excellent for bonding Natural Stone & tiles to all Masonry surfaces including Cement sheet, Cement render, Plasterboard, Timber and is suitable for both interior & exterior applications.</p>
<p>Additional Information:</p> <ul style="list-style-type: none"> Megapoxy comes in two forms a gel and a paste. What is the difference between gel and paste? Gel is easier to work with as it spreads more freely however cure time is less (recommended for colder seasons and someone with experience) For further details call us on (03) 8786 3113 please ask for sales

3ABSR101

- Bundle Rack is good for larger slab yards and fabricators that store multiple slabs
- It is designed to store bundles of marble and granite in the warehouse or slab yard
- Each pole is 50 x 100 x 6 x 1500 mm
- Each steel rail is covered with an additional strip of wood to protect the slab from chipping and scratching

KITCHEN PROCESSING TABLE

Codes

3AKPT8340W

- Our processing table is designed to make your work more efficient
- The table top tilts from being flat to varies degrees for you to work more comfortably
- Can handle 1/2" slab easily
- Height can be adjusted from 29" to 39", length to 79" and tilts a t 2 angles either 45 degree or 76 degree
- Comes with four 6" heavy-duty casters that make the transportation easier
- Collapsible design created to save on freight costs

MULTI FLIP TROLLEY

Codes

3AMPT15639W

- Designed to make your work more efficient
- Table top tilts from being flat to various degrees for user to work more comfortably
- Comes with four swivel casters making transportation easy
- Max Load: 300kg

ADJUSTABLE WORK TABLE

Codes

3AFTA-W

- Table is designed to make your work more efficient. The table top tilts from being flat to various degrees for user to work more comfortably. It can handle slabs with different thickness.
- More stability for the inconvenience of working with sink-hole cut-outs by adjusting four ended levelling posts.
- It comes with the four locking removable casters that make the transportation easier.
- Length 2000mm, Width 600mm, height 1000mm, Net Weight 104kg

WORK TABLE WITH CASTERS

Codes

3AWT7523CW

- Rubber-lined, to protect your polished surfaces while working on the edges
- The rubber lining can be easily replaced when worn
- Built in brackets allow you to create different work stations
- Independent adjustable feet
- Collapsible for easy transport
- Constructed on 18 gauge 2" x 2" square tubing
- Dimensions: 1935 x 614 x 995 - 1015mm
- Loading capacity: 300kg / Net weight: 56kg

FORKLIFT JIB STANDARD

Size	Codes
UP TO 2.5m	3AFJ-25

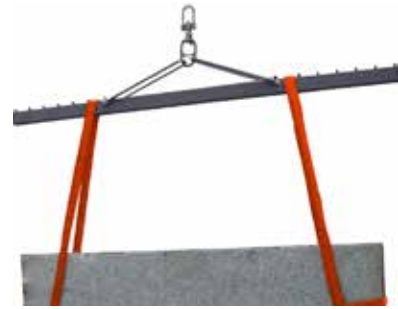

- For use with Slab Lifter
- Designed for the stone industry, this jib has been made for use on 2 & 2.5 Tonne forklift trucks
- With its telescopic boom, it offers versatility with maximum visibility for the driver
- Full extend reach up to 2.5m

LAMINATING CLAMPS

Size	Codes
0.9M	ABLC090
1.2M	ABLC120
1.8M	ABLC180

- Fast and Effective / Secure and Safe / Easy to Use / Minimal Labour
- Lamination Clamps are designed for holding multiple slabs together while they are laminated and glued. The simple design of the C Clamp allows it to glide with ease on the aluminum bar track and can be tightened or loosened quickly when finished. With a sturdy rubber lined.

SPREADER BEAM

Codes
3ASB106M6

- Designed for moving slabs around the workshop
- Can be used for loading and unloading containers
- Max capacity: 4500kg
- Length: 2700 mm
- Width: 112 mm
- Height: 488 mm

FABRICATION STAND (PAIR)

Codes
3AFS3139W

- Portable
- Compact
- Durable
- Flexible
- Lightweight
- The Abaco Fabrication stand is designed to support slabs for polishing, sharpening, cutting and many other purposes. The height is adjustable from 800mm to 1000mm

SLAB LIFTER

Size	Codes
15-50mm	ABL50/W
20-75mm	ABL75
20-75mm	ABL75/WT
20-60mm	ABL60W

- For lifting 15 to 75mm thick material (SWL 1200kg)
- These clamps with their rubber-lined jaws have been developed to handle material in slab or sheet form, stacked in racks, without damaging the material's surfaces. They have a number of advantages over the common clamping devices.

CARRY CLAMPS

Codes
LYNCCL

- Carry clamps are designed for safely lifting and transporting stone slabs without using a forklift. Fully vulcanized rubber pads provide extra grip and prevent damage to slabs. The weight of the clamp places sufficient clamping force for a simple lift.
- By eliminating the use of a forklift, the carry clamps

SKY RIDER LIFTER- ASL20A

Codes

AUASL20A-W

- Sky Rider Lifter Automatic is designed to clamp and move the slab (e.g stone, granite, marble, porcelain, counter top, etc.) and other sheet materials in workshops, warehouses, work sites, and so on.
- Clamp plates Opening and Closing mechanism is fully automatic.
- Length 316mm, Width 122mm, Height 262mm, Grip Range 0 - 22mm, Net Weight 8.7kg & Work Load Limit 500kg

SELF-LOCKING DOLLY - SLT60

Codes

AUSLT60-W

- Self-locking dolly is designed for moving stone slabs at work sites. It is made with Pneumatic tires to make transporting slab easier in different moving surface. The built-in auto-grip is ideal for secure transporting slabs within the worksite.
- More efficient with compact design, self-clamping capability.
- The clamping jaws are covered by rubber to protect the stone slabs.
- Length 320mm, Width 293mm, Height 307mm, Grip Range 0-130mm, Net Weight 15kg.

TUG DOLLY - ATD25

Codes

AUTD25-W

- The main body is made of aluminium, lightweight, and easy to handle with good portability. Tug Dolly is able to carry a big load, capacity up to 450kg.
- With the four-solid-wheel structure, Tug Dolly is unshockable and very easy to handle as well as help slabs avoid damages.
- Length 710mm, Width 382mm, Height 308mm, Grip Range 0-60mm, Net Weight 10kg & W.L.L. 250kg

SLAB DOLLY - 2 PNEUMATIC WHEELS

Type

Codes

8" Slab Dolly 3ASD008

11" Slab Dolly 3ASD011

- The 11" pneumatic wheeled slab dolly is used to move slabs around the work place and one-site. Joined by two pneumatic wheels and a channel. The channel is rubber vulcanized alone all sides to avoid any chipping edges on the finished work piece.
- Pneumatic wheels: 270 x 80mm
- U Channel: 100 x 50mm
- Loading capacity: 275kg
- Net Weight: 10kg
- Length: 510mm
- Width: 300mm / Height: 280mm

SELF LOCKING SLAB TROLLEY WITH KICK STAND

Codes

AUSLT13M3-W

- This heavy-duty trolley with its solid wheel & self locking jaws is an all terrain trolley
- Ideal for moving heavy work pieces from truck to work areas on building sites
- The dolly has 350 x 100mm diameter pressurized wheels and a 125mm heavy duty swivel caster that increases stability & flexibility in narrow & rough surfaces

SELF LOCKING SLAB TROLLEY 3 WHEELS

Codes

AUSLTM3

- This heavy-duty trolley with its solid wheel & self locking jaws is an all terrain trolley
- Ideal for moving heavy work pieces from truck to work areas on building sites
- The dolly has 350 x 100mm diameter pressurized wheels and a 125mm heavy duty swivel caster that increases stability & flexibility in narrow & rough surfaces

SLAB DOLLY 4 WHEELS

Codes

3ASDS003W

- It is joined by 2 solid rubber wheels, 2 swivel wheels and a channel. The rubber is vulcanized to the bottom, sides and top of the trolley to avoid any chipping edges on the finished work piece.
- Dimensions: 510 x 250 x 108mm
- Solid rubber wheels: 205 x 56mm
- Swivel wheels: 77 x 30mm
- Loading capacity: 300kg
- Net Weight: 12kg

EZ-PRO WINCH CART

Description

AUEWC450

- Provides a much safer and economical method for loading and unloading the large slab out of truck, lowering the piece to the ground, raising the slab for installation. It is very common in warehouses, workshops and construction sites.
- Come with a slide body where the slab can be raised or lowered by the use of an electric winch.
- Construct with a slab securing sliding block to hold the slab tightly from the top down and a plastic clamp kit to secure it from the bottom up enhances safety level as well as added stability during transportation.
- Rubber pads covered on the main base are designed to prevent scratches or damages to the slab being carried during operation.
- With the effective and practical design, the cart could easily transport the slab weighing up 990 lbs (450 kg).
- The winch cart has equipped with a wireless remote for ensuring operator's safety.
- Length: 880mm
- Width: 432mm
- Height: 1704- 2574mm
- Net Weight: 51kg
- Work load limit 450kg

ELEVATING HAND CART

Description

AUEHC3541

- The Elevating Hand Cart is designed for raising, loading, and unloading finished pieces safely with minimal labor. It is constructed with a vertical steel channel where pieces can be raised and lowered by the use of a hand crank.
- Two pneumatic tires and two self-locking swivel casters are positioned just outside the steel frame of the base for added stability. The Elevating Hand Cart has the ability to elevate pieces from 1 foot up to 3 1/2 feet where they can be easily loaded onto a truck bed for transport to and from the job sites.
- The hand crank of Elevating Hand Cart is located on the controlling unit away from the pieces being handled for safety purposes. A rubber lined channel can accommodate the pieces up to 2 3/4" (70 mm).
- Length: 977mm
- Width: 656mm
- height: 1800 - 2500mm
- Net weight: 87kg
- W.L.L: 500kg

Double Sink

ABSL48

- Light and compact
- User friendly
- Efficient
- A must have tool for the positioning and gluing of sinks to counter tops. With the sink lock you will not have any difficulties in adjusting the location of the sink into perfect positioning
- Securely supports your sink while the glue is drying. The sink lock has a quick release lock nut, which allows you to lock the sink into place very quickly

SEAM SETTER DOUBLE RAIL

Codes

LYNSSDR

Description:

With the Seam Setter your counter tops will be perfectly joint and level.
With a large foot print 7 1/2" suction cups our Seam Setter is very strong for the required task.

- Light and Compact
- Simple and Easy to use
- Very Efficient
- Carry case included

SEAMING TOOL (LEVER TYPE PADS)

Codes

LYN0702A

- Ø117mm Leaver type suction pads
- The ideal tool for pulling together flat, smooth sheets of material exactly to the millimeter.
- Suitable for all materials with plane like glass, plastic, metal, coated wood, marble etc.
- The vacuum is produced by lever action.

WATERFALL SEAMING TOOL - PAIR

Codes

LYN9602S

- Ø117mm Leaver type suction pads

- The stone bench saws ITC AL are ideal for the construction sector and for everyone who needs to move their machinery often. Professional wet saw, very light and resistant to corrosive processes, thanks to their structure in aluminium.
- Solid, precise and versatile they are adaptable to cutting all materials (Grès porcelain stone-ware, bricks, items in concrete, brickworks, natural stones, marbles and granites).
- The head runs on chrome-plated guides by means of linear recirculating ball bearings with anti-dust protection.
- Manual inclination of the bridge for cuts from 90° to 45°. Adjustment of the depth of the cut is with a flywheel set above the motor unit. They are designed to work with blades of Ø250 Ø300 Ø350 Ø400 mm. Available in single-phase or three-phase version.

- Traditional floor grinding/polishing machines, ideal for work in flats or on medium-large surfaces. Tough machines, compact and reliable. Specific for marble, Terrazzo, soft stone, concrete and similar.
- Employing special diamond abrasives and resinoids, they are also excellent for working granite and semiprecious stones. A flywheel between the tank and the motor permits levelling of the machine during the work process. Emission of water is regulated by a small valve positioned on the tank cap.
- Equipped with a rounded handle for guiding the machine while working. Available with single or three-phase motor. Machines of the PLUS series, thanks to their size, exploit a greater range of action.

ABACO - DEHYDRATOR

Item Code	Description	Items Included
ABDES ABDESS	<p>The Abaco Dehydrator is a dehydration system for the fast collection and trapping of the abrasive mud produced by machining and finishing marble, granite and other stones.</p> <p>The Abaco dehydrator is an economical, one step method in separating and dewatering sludge's and slurries. The dehydrator is constructed of stainless steel and consists of four basic components: pump, mud holding tank, clean water tray and filter bags. The Abaco dehydrator has no moving parts, requires minimal labour, is very economical to use. And since it is constructed out of stainless steel, requires extremely low maintenance.</p>	<ul style="list-style-type: none"> • 4x Plastic Curtains • 2x Stainless Steel Curtain Rods • 1 x 5m length Industry Water Hose • 3 x Industry Hose Clamps • 20 x Polypropylene Bags • 1 x Pit Cleaning Tool / Air Stick • 1 x Solid Rubber Drain Plug

RADIAL ARM POLISHER/GRINDER

Description:

- The machines are pressurised through spring and equipped with hard crank plate type mechanism, easy and stable to operate, thus ensuring a long service life.
-
- Diamond Grinding to Resin/Abrasive polishing achieved by Frankfurt or Resin Plate and the degree of finish can be as high as 100%.
- Machine available in Wall Mount or Pillar Type.

MORTAR MIXER

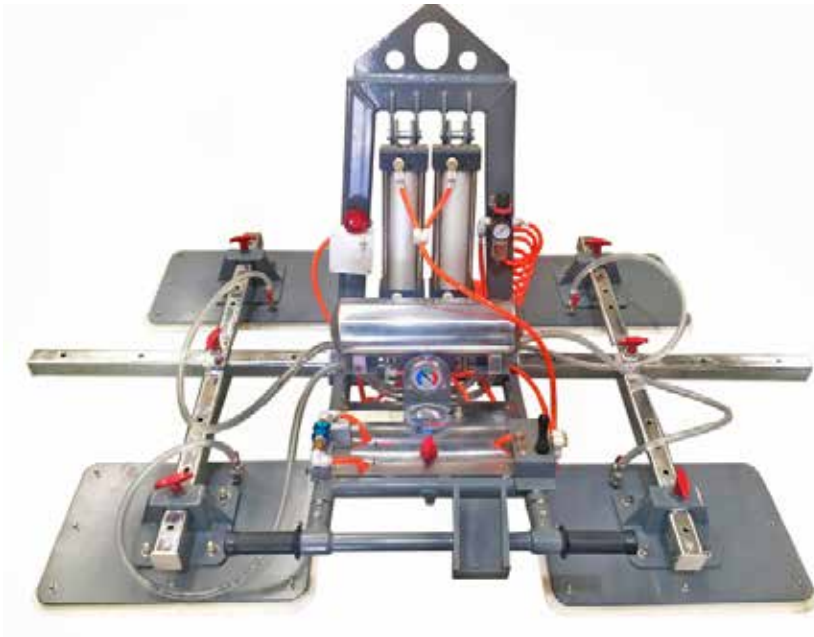

Description:

- Designed to mix material from sand to cement into a homogeneous mixture within 30 - 60 seconds
- Detachable for easy transporting and clearance
- Steel frame and drum with a single phase motor
- 105L

FOUR PAD VACUUM LIFTER CONDOR

Description:

- Designed for lifting and installing large sized slabs
- Useful to work in the warehouse, workshops or factories and especially suitable for horizontal transportation
- Can incline vertical position from 0 -90 Degrees
- Handles can be used to lift and move, while the same vacuum is used to hold and lift the load
- Designed to lift smooth surfaced stone
- Lifting power: 1000Kg
- Weight: 120 Kg
- Minimum slab dimension: 1320 x 720 mm
- Maintaining pressure of pre-vacuum tankBar (kg/cm2): 0.7 - 0.8

THREE PAD VACUUM LIFTER ALBATROSS

Description:

- Designed for lifting, moving and installing large size slabs.
- It is useful to work in the warehouse, workshops or factories and especially suitable for horizontal transportation.
- Tilt flat or upright positions 0-90 Degrees. Use the handle to lift and move, while the same vacuum is used to hold and lift the load properly.
- One person operation to save labor cost, increase productivity and efficiency.
- Designed to lift smooth surfaced stone.
- Cart included for easy maneuver.
- Lifting power: 750 kgs
- Weight: 120 Kg
- Minimum slab dimension: 1320 x 620 mm
- Maintaining pressure of pre-vacuum tankBar (kg/cm2): 0.7 - 0.8

CNC BRIDGE SAW ORBIT A5

Description:

- This bridge saw has everything a technologically advanced bridge saw needs to have today: 5 interpolated axis, spindle with half inch fitting with trough-spindle lubrication, tilting table up to 85°, vacuum manipulator system for parts movement during automatic cut process, on-board camera, blade presetting and stone thickness probe.
- This machine is a fully interpolated 5 axis bridge saw.
- The Y axis is moved by a gantry system. This guarantees a perfect square of the bridge. Automatic head rotation from 0° to 400° combined with automatic blade tilting from 0° to 90°
- Suitable for large production runs, at the same time containing costs.
- This machine comes with the "absolutely zero" technology, which allow the machine to work without doing the homing process.
- It has an extremely easy to use interface, realized to facilitate the interaction between the operator and the machine.
- It can quickly do easy cuts in manual, the machine also can import and work with DXF (AutoCAD) files and "G-code" (RS-274 machine tool programming language)
- The cable-drag chain and the electric cables used on the machine are purposely made for use at high speed (robot materials).

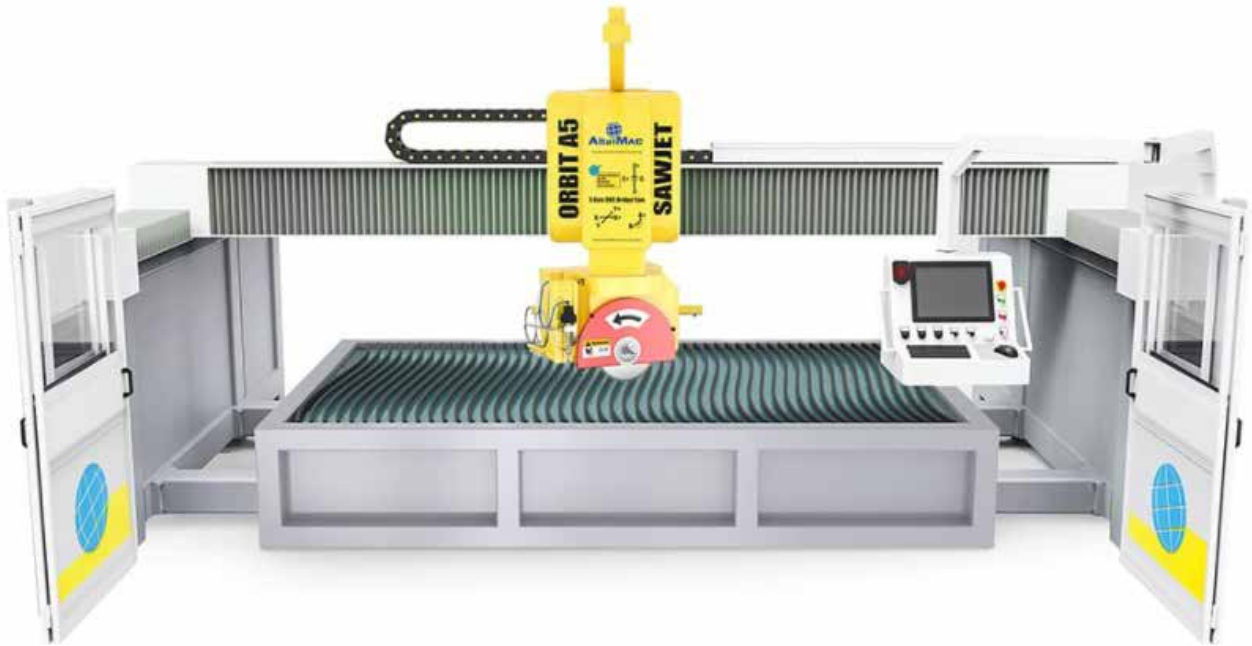

CNC BRIDGE SAW ORBIT B5

Description:

- This bridge saw has everything a technologically advanced bridge saw needs to have today: spindle with half inch fitting with trough-spindle lubrication, on-board camera, blade presetting and stone thickness probe.
- This machine is a fully interpolated 5 axis bridge saw. Head rotate 0° to 400° interpolate with blade tilting 0° to 90° makes it suitable for any jobs . This machine can runs large production , at the same time containing costs.
- The absolute precision of the movements is guaranteed by a state of art transmission on linear ball guide, moved by brushless motors through high precision helical gears and racks.
- This machine comes with the "absolutely zero" technology, which allows the machine to work without doing the homing process.
- It has an extremely easy to use interface, designed to facilitate easy interaction between operator and machine.
- The ORBIT B5 imports and works with DXF (standard CAD file) f and standard G-Code (Standard RS-274 machine tool programming language), but can also do simple cuts in manual mode.
- The structure is hot-galvanized and painted to last a long life.

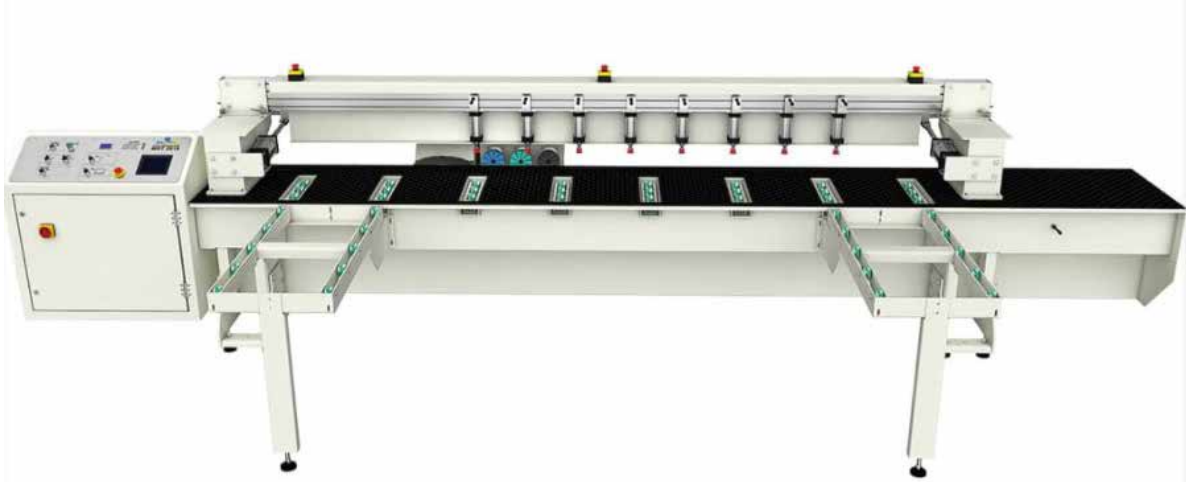

CNC SAWJET ORBIT A5

Description:

- This stone CNC Sawjet & bridge saw has everything a technologically advanced bridge saw & waterjet needs to have today: 5 interpolated axis, spindle with half inch fitting with trough-spindle lubrication, tilting table up to 85° (Optional), vacuum manipulator system for parts movement during automatic cut process, on-board camera, blade presetting and stone thickness probe.
- Waterjet 5 axis.
- This machine is a fully interpolated 5 axis bridge saw. The Y axis is moved by a gantry system. This guarantees a perfect square of the bridge. Automatic head rotation from 0° to 400° combined with automatic blade tilting from 0° to 90° makes it suitable for large production runs, at the same time containing costs.
- The absolute precision of the movements is guarantee by a state of art transmission on linear ball guide, moved by brushless motors through high precision helical gears and racks.
- CNC Sawjet & bridge saw machine comes with the "absolutely zero" technology, which allow the machine to work without doing the homing process.
- It has an extremely easy to use interface, realized to facilitate the interaction between the operator and the machine.
- CNC Sawjet & bridge saw can quickly do easy cuts in manual, the machine also can import and work with DXF (AutoCAD) files and "G-code" (RS-274 machine tool programming language).
- The cable-drag chain and the electric cables used on the machine are purposely made for use at high speed (robot materials).

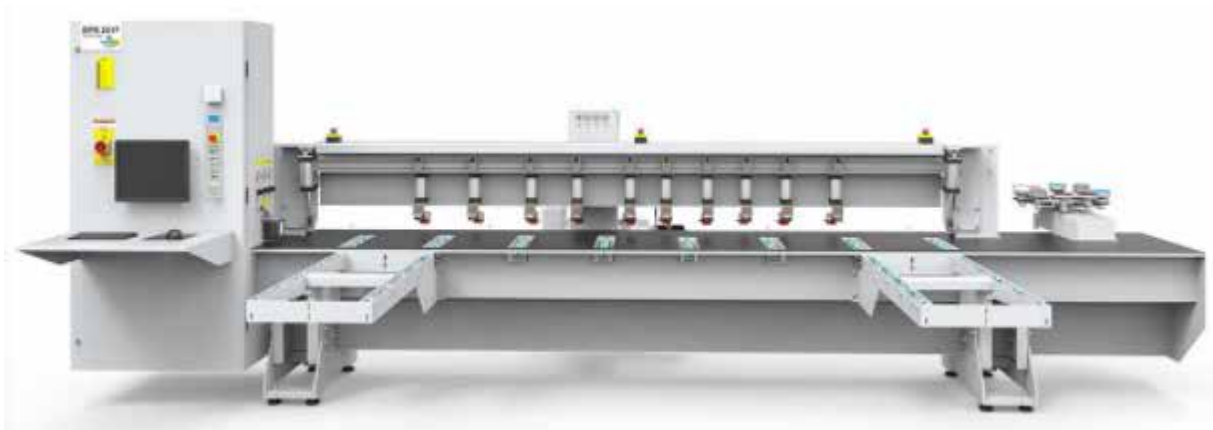

MST MITER SAW

Description:

- Heavy duty miter saw. The rigid structure eliminates vibrations and gives a sharp edge on your miters.
- Retractable alignment provides for easy loading. Pneumatic cylinders firmly hold the stone in place on the machine table and can be adjusted for narrow strips, ensuring a straight mitre every time.
- Available with optional 3 motors to mount polishing pads for polish flat edges.

EDGE POLISHER ROBOT EPR 3500

Description:

- This machine can carry out all the operations needed for the shaping and polishing of flat and rounded edges.
- The EPR 3500 is a fine combination of mechanical, electrical and software engineering.
- It can shape and polish convex edges on the stone using flat polishing tools, the machine has the fastest patented automatic tool change in the market.
- It has a patented motor that can retract and extend his shaft pneumatically, and uses different pressures to adjust the work load of tools on the stone.

KITCHEN TOP CNC KT32

Description:

- The machines are pressurised through spring and equipped with hard crank plate type mechanism, easy and stable to operate, thus ensuring a long service life.
-
- Diamond Grinding to Resin/Abrasive polishing achieved by Frankfurt or Resin Plate and the degree of finish can be as high as 100%.
- Machine available in Wall Mount or Pillar Type.

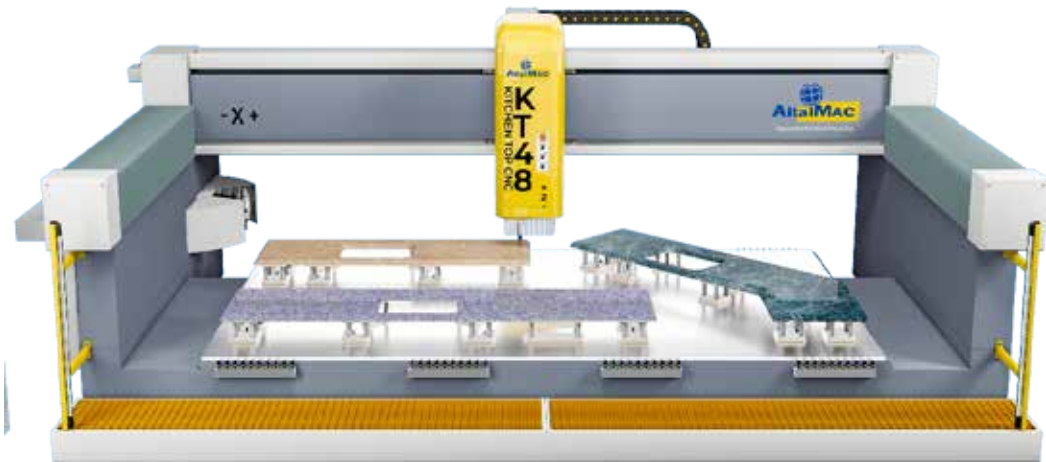

KITCHEN TOP CNC KT38

Description:

- The machines are pressurised through spring and equipped with hard crank plate type mechanism, easy and stable to operate, thus ensuring a long service life.
-
- Diamond Grinding to Resin/Abrasive polishing achieved by Frankfurt or Resin Plate and the degree of finish can be as high as 100%.
- Machine available in Wall Mount or Pillar Type.

KITCHEN TOP CNC KT48

Description:

- The machines are pressurised through spring and equipped with hard crank plate type mechanism, easy and stable to operate, thus ensuring a long service life.
- Diamond Grinding to Resin/Abrasive polishing achieved by Frankfurt or Resin Plate and the degree of finish can be as high as 100%.
- Machine available in Wall Mount or Pillar Type.

KITCHEN TOP CNC KT16

Description:

- The machines are pressurised through spring and equipped with hard crank plate type mechanism, easy and stable to operate, thus ensuring a long service life
- Diamond Grinding to Resin/Abrasive polishing achieved by Frankfurt or Resin Plate and the degree of finish can be as high as 100%.
- Machine available in Wall Mount or Pillar Type.

STONE SINK CNC KT12

Description:

- Stone sink CNC KT12 is cutting machine for granite marble and quartz.it is a excellent stone Kitchen Top CNC.
- The Stone sink CNC KT12 is a revolutionary machine to cut granite countertops, modern and simple to use thanks to AitalMAC experience in making CNC machines for granite for more than 30 years, the KT12 it's the best CNC machine on the market to cut sink cut out.
- The open design makes it easy to load and unload your countertops on the machine (optional 2 tables to double production), parts can be quickly lined up on alignment blocks, and immediately fixed with pneumatic locking pistons.
- The user-friendly UI lets you choose between your loaded sink cut outs, after finding the center with the laser pointer, all the operator has to do it start and watch it cut.

CMP Stonemason Supplies Pty Ltd – Terms & Conditions of Trade

1.	Definitions	(d) The Customer should not convert or process the Goods or intermix them with other goods but if the Customer does so then the Customer holds the resulting product on trust for the benefit of the Seller and must sell, dispose of or return the resulting product to the Seller as it so directs.	13.5	Without prejudice to the Seller's other remedies at law the Seller shall be entitled to cancel all or any part of any order of the Customer which remains unfulfilled and all amounts owing to the Seller shall, whether or not due for payment, become immediately payable if:
1.1	"Seller" means CMP Stonemason Supplies Pty Ltd, its successors and assigns or any person acting on behalf of and with the authority of CMP Stonemason Supplies Pty Ltd.	(e) The Customer irrevocably authorises the Seller to enter any premises where the Seller believes the Goods are kept and recover possession of the Goods.		(a) any money payable to the Seller becomes overdue, or in the Seller's opinion the Customer will be unable to make a payment when it falls due;
1.2	"Customer" means the person/s buying the Goods as specified in any invoice, document or order, and if there is more than one Customer is a reference to each Customer jointly and severally.	(f) The Seller may recover possession of any Goods in transit whether or not delivery has occurred.		(b) the Customer becomes insolvent, convenes a meeting with its creditors or proposes or enters into an arrangement with creditors, or makes an assignment for the benefit of its creditors; or
1.3	"Goods" means all Goods or Services supplied by the Seller to the Customer at the Customer's request from time to time (where the context so permits the terms 'Goods' or 'Services' shall be interchangeable for the other).	(g) The Customer shall not charge or grant an encumbrance over the Goods nor grant nor otherwise give away any interest in the Goods while they remain the property of the Seller.		(c) a receiver, manager, liquidator (provisional or otherwise) or similar person is appointed in respect of the Customer or any asset of the Customer.
1.4	"Price" means the Price payable for the Goods as agreed between the Seller and the Customer in accordance with clause 5 below.	(h) The Seller may commence proceedings to recover the Price of the Goods sold notwithstanding that ownership of the Goods has not passed to the Customer.		
2.	Acceptance			
2.1	When Customer is taken to have exclusively accepted and is immediately bound, jointly and severally, by these terms and conditions if the Customer places an order for or accepts delivery of the Goods.	10. Personal Property Securities Act 2009 ("PPSA")	14. Cancellation	
2.2	These terms and conditions may only be amended with the Seller's consent in writing and shall prevail to the extent of any inconsistency with any other document or agreement between the Customer and the Seller.	10.1 In this clause financing statement, financing change statement, security agreement, and security interest has the meaning given to it by the PPSA.	14.1 The Seller may cancel any contract to which these terms and conditions apply or cancel delivery of Goods at any time before the Goods are delivered by giving written notice to the Customer. On giving such notice the Seller shall repay to the Customer any money paid by the Customer for the Goods. The Seller shall not be liable for any loss or damage whatsoever arising from such cancellation.	
3.	Electronic Transactions (Victoria) Act 2000	10.2 Upon assenting to these terms and conditions in writing the Customer acknowledges and agrees that these terms and conditions constitute a security agreement for the purposes of the PPSA and creates a security interest in all Goods and/or collateral (account) – being a monetary obligation of the Customer to the Seller for Services – that have previously been supplied and that will be supplied in the future by the Seller to the Customer.	14.2 In the event that the Customer cancels delivery of Goods the Customer shall be liable for any and all loss incurred (whether direct or indirect) by the Seller as a direct result of the cancellation (including, but not limited to, any loss of profits).	
3.1	Electronic signatures shall be deemed to be accepted by either party providing that the parties have complied with Section 9 of the Electronic Transactions (Victoria) Act 2000 or any other applicable provisions of that Act or any Regulations referred to in that Act.	10.3 The Customer undertakes to:	14.3 Cancellation of orders for Goods made to the Customer's specifications, or for non-stocklist items, will definitely not be accepted once production has commenced, or an order has been placed.	
4.	Change in Control	(a) promptly sign any further documents and/or provide any further information (such information to be complete, accurate and up-to-date in all respects) which the Seller may reasonably require to;	15. Dispute Resolution	
4.1	The Customer shall give the Seller not less than fourteen (14) days prior written notice of any proposed change of ownership of the Customer and/or any other change in the Customer's details (including but not limited to, changes in the Customer's name, address, contact phone or fax number/s, or business practice). The Customer shall be liable for any loss incurred by the Seller as a result of the Customer's failure to comply with this clause.	(i) register a financing statement or financing change statement in relation to a security interest on the Personal Property Securities Register;	15.1 If a dispute arises between the parties to this contract then either party shall send to the other party a notice of dispute in writing adequately identifying and providing details of the dispute. Within fourteen (14) days after service of a notice of dispute, the parties shall confer at least once, to attempt to resolve the dispute. At any such conference each party shall be represented by a person having authority to agree to a resolution of the dispute. In the event that the dispute cannot be so resolved either party may by further notice in writing delivered by hand or sent by certified mail to the other party refer such dispute to arbitration. Any arbitration shall be:	
5.	Price and Payment	(ii) register any other document required to be registered by the PPSA; or		(a) referred to a single arbitrator to be nominated by the President of the Institute of Arbitrators Australia; and
5.1	At the Seller's sole discretion the Price shall be either:	(iii) correct a defect in a statement referred to in clause 10.3(a)(i) or 10.3(a)(ii);		(b) conducted in accordance with the Institute of Arbitrators Australia Rules for the Conduct of Commercial Arbitration.
	(a) as indicated on any invoice provided by the Seller to the Customer; or	(b) indemnify, and upon demand reimburse, the Seller for all expenses incurred in registering a financing statement or financing change statement on the Personal Property Securities Register established by the PPSA or releasing any Goods charged thereby;		
	(b) the Price as at the date of delivery of the Goods according to the Seller's current price list; or	(c) not register a financing change statement in respect of a security interest without the prior written consent of the Seller;		
	(c) the Seller's quoted price (subject to clause 5.2) which will be valid for the period stated in the quotation or otherwise for a period of thirty (30) days.	(d) not register, or permit to be registered, a financing statement or a financing change statement in relation to the Goods and/or collateral (account) in favour of a third party without the prior written consent of the Seller;		
5.2	The Seller reserves the right to change the Price if a variation to the Seller's quotation is requested. Any variation from the plan of scheduled Services or specifications of the Goods (including, but not limited to, any variation as a result of fluctuations in currency exchange rates or increases to the Seller in the cost of taxes, levies, materials and labour) will be charged for on the basis of the Seller's quotation and will be shown as variations on the invoice.	(e) immediately advise the Seller of any material change in its business practices of selling the Goods which would result in a change in the nature of proceeds derived from such sale.		
5.3	At the Seller's sole discretion a non-refundable deposit may be required.	10.4 The Seller and the Customer agree that sections 96, 115 and 125 of the PPSA do not apply to the security agreement created by these terms and conditions.		
5.4	Time for payment for the Goods being of the essence, the Price will be payable by the Customer on the date/s determined by the Seller, which may be:	10.5 The Customer waives their rights to receive notices under sections 95, 118, 121(4), 130, 132(3)(d) and 132(4) of the PPSA.		
	(a) on delivery of the Goods;	10.6 The Customer waives their rights as a grantor and/or a debtor under sections 142 and 143 of the PPSA.		
	(b) before delivery of the Goods;	10.7 Unless otherwise agreed to in writing by the Seller, the Customer waives their right to receive a verification statement in accordance with section 157 of the PPSA.		
	(c) by way of instalments/progress payments in accordance with the Seller's payment schedule;	10.8 The Customer must unconditionally ratify any actions taken by the Seller under clauses 10.3 to 10.5.		
	(d) thirty (30) days following the end of the month in which a statement is posted to the Customer's address or address for notices;	10.9 Subject to any express provisions to the contrary nothing in these terms and conditions is intended to have the effect of contracting out of any of the provisions of the PPSA.		
	(e) the date specified on any invoice or other form as being the date for payment; or	11. Security and Charge		
	(f) failing any notice to the contrary, the date which is seven (7) days following the date of any invoice given to the Customer by the Seller.	11.1 In consideration of the Seller agreeing to supply the Goods, the Customer charges all of its rights, title and interest (whether joint or several) in any land, realty or other assets capable of being charged, owned by the Customer either now or in the future, to secure the performance of its obligations under these terms and conditions (including, but not limited to, the payment of any money).		
5.5	Payment may be made by cash, cheque, bank cheque, electronic/on-line banking, credit card (plus a surcharge of up to two percent (2%) of the Price), or by any other method as agreed to between the Customer and the Seller.	11.2 The Customer indemnifies the Seller from and against all the Seller's costs and disbursements including legal costs on a solicitor and own client basis incurred in exercising the Seller's rights under this clause.		
5.6	Unless otherwise stated the Price does not include GST. In addition to the Price the Customer must pay to the Seller an amount equal to any GST the Seller must pay for any supply by the Seller under this or any other agreement for the sale of the Goods. The Customer must pay GST, without deduction or set off of any other amounts, at the same time and on the same basis as the Customer pays the Price. In addition the Customer must pay any other taxes and duties that may be applicable in addition to the Price except where they are expressly included in the Price.	11.3 The Customer irrevocably appoints the Seller and each director of the Seller as the Customer's true and lawful attorney/s to perform all necessary acts to give effect to the provisions of this clause 11 including, but not limited to, signing any document on the Customer's behalf.		
6.	Delivery of Goods	12. Defects, Warranties and Returns, Competition and Consumer Act 2010 (CCA)		
6.1	Delivery ("Delivery") of the Goods is taken to occur at the time that:	12.1 The Customer must inspect the Goods on delivery and must within seven (7) days of delivery notify the Seller in writing of any evident defect/damage, shortage in quantity, or failure to comply with the description or quote. The Customer must notify any other alleged defect in the Goods as soon as reasonably possible after any such defect becomes evident. Upon such notification the Customer must allow the Seller to inspect the Goods.		
	(a) the Customer or the Customer's nominated carrier takes possession of the Goods at the Seller's address; or	12.2 Under applicable State, Territory and Commonwealth Law (including, without limitation the CCA), certain statutory implied guarantees and warranties (including, without limitation the statutory guarantees under the CCA) may be implied into these terms and conditions (Non-Excluded Guarantees).		
	(b) the Seller (or the Seller's nominated carrier) delivers the Goods to the Customer's nominated address even if the Customer is not present at the address.	12.3 The Seller acknowledges that nothing in these terms and conditions purports to modify or exclude the Non-Excluded Guarantees.		
6.2	At the Seller's sole discretion the cost of delivery is either included in the Price or is in addition to the Price.	12.4 Except as expressly set out in these terms and conditions or in respect of the Non-Excluded Guarantees, the Seller makes no warranties or other representations under these terms and conditions including but not limited to the quality or suitability of the Goods. The Seller's liability in respect of these warranties is limited to the fullest extent permitted by law.		
6.3	The Customer must take delivery by receipt or collection of the Goods whenever they are tendered for delivery. In the event that the Customer is unable to take delivery of the Goods as arranged then the Seller shall be entitled to charge a reasonable fee for redelivery and/or storage.	12.5 If the Customer is a consumer within the meaning of the CCA, the Seller's liability is limited to the extent permitted by section 64A of Schedule 2.		
6.4	Any time or date given by the Seller to the Customer is an estimate only. The Customer must still accept delivery of the Goods even if late and the Seller will not be liable for any loss or damage incurred by the Customer as a result of the delivery being late.	12.6 If the Seller is required to replace the Goods under this clause or the CCA, but is unable to do so, the Seller may refund any money the Customer has paid for the Goods.		
7.	Risk	12.7 If the Customer is not a consumer within the meaning of the CCA, the Seller's liability for any defect or damage in the Goods is:		
7.1	Risk of damage to or loss of the Goods passes to the Customer on Delivery and the Customer must insure the Goods on or before Delivery.	(a) limited to the value of any express warranty or warranty card provided to the Customer by the Seller at the Seller's sole discretion;		
7.2	If any of the Goods are damaged or destroyed following delivery but prior to ownership passing to the Customer, the Seller is entitled to receive all insurance proceeds payable for the Goods. The production of these terms and conditions by the Seller is sufficient evidence of the Seller's rights to receive the insurance proceeds without the need for any person dealing with the Seller to make further enquiries.	(b) limited to any warranty to which the Seller is entitled, if the Seller did not manufacture the Goods;		
7.3	If the Customer requests the Seller to leave Goods outside the Seller's premises for collection or to deliver the Goods to an unattended location then such Goods shall be left at the Customer's sole risk.	(c) otherwise negated absolutely.		
7.4	The Customer acknowledges that variations of colour, shade and grain are inherent in all kiln fired products and natural stone. While every effort will be taken by the Seller to match colour, shade or grain of product, the Seller shall not be liable for any loss, damages or costs however arising resulting from any variation in colour, shading or grain between batches of product or sale samples and the final product supplied.	12.8 Subject to this clause 12, returns will only be accepted provided that:		
7.5	The Customer acknowledges and accepts that the supply of Goods for accepted orders may be subject to availability and if, for any reason, Goods are not or cease to be available, the Seller reserves the right to vary the Price with alternative Goods as per clause 5.2. The Seller also reserves the right to halt all Services until such time as the Seller and the Customer agree to such changes.	(a) the Customer has complied with the provisions of clause 12.1; and		
7.6	Any advice, recommendation, information, assistance or service provided by the Seller in relation to Goods or Services supplied is given in good faith, is based on the Seller's own knowledge and experience and shall be accepted without liability on the part of the Seller and it shall be the responsibility of the Customer to confirm the accuracy and reliability of the same in light of the use to which the Customer makes or intends to make of the Goods or Services.	(b) the Seller has agreed that the Goods are defective; and		
8.	Accuracy of Customer's Plans and Measurements	(c) the Goods are returned within a reasonable time at the Customer's cost (if that cost is not significant); and		
8.1	The Seller shall be entitled to rely on the accuracy of any plans, specifications and other information provided by the Customer. The Customer acknowledges and agrees that in the event that any of this information provided by the Customer is inaccurate, the Seller accepts no responsibility for any loss, damages, or costs however resulting from these inaccurate plans, specifications or other information.	(d) the Goods are returned in as close a condition to that in which they were delivered as is possible.		
8.2	In the event the Customer gives information relating to measurements and quantities of the Goods required to complete the Services, it is the Customer's responsibility to verify the accuracy of the measurements and quantities, before the Customer or Seller places an order based on these measurements and quantities. The Seller accepts no responsibility for any loss, damages, or costs however resulting from the Customer's failure to comply with this clause.	12.9 Notwithstanding clauses 12.1 to 12.8 but subject to the CCA, the Seller shall not be liable for any defect or damage which may be caused or partly caused by or arise as a result of:		
9.	Title	(a) the Customer failing to properly maintain or store any Goods;		
9.1	The Seller and the Customer agree that ownership of the Goods shall not pass until:	(b) the Customer using the Goods for any purpose other than that for which they were designed;		
	(a) the Customer has paid the Seller all amounts owing to the Seller; and	(c) the Customer continuing the use of any Goods after any defect became apparent or should have become apparent to a reasonably prudent operator or user;		
	(b) the Customer has met all of its other obligations to the Seller.	(d) the Customer failing to follow any instructions or guidelines provided by the Seller;		
9.2	Receipt by the Seller of any form of payment other than cash shall not be deemed to be payment until that form of payment has been honoured, cleared or recognised.	(e) fair wear and tear, any accident, or act of God.		
9.3	It is further agreed that:	12.10 In the case of second hand Goods, unless the Customer is a consumer under the CCA, the Customer acknowledges that it has had full opportunity to inspect the second hand Goods prior to delivery and accepts them with all faults and that to the extent permitted by law no warranty is given by the Seller as to the quality or suitability for any purpose and any implied warranty, statutory or otherwise, is expressly excluded. The Customer acknowledges and agrees that the Seller has agreed to provide the Customer with the second hand Goods and calculated the Price of the second hand Goods in reliance of this clause 12.10.		
	(a) until ownership of the Goods passes to the Customer in accordance with clause 9.1 that the Customer is only a bailee of the Goods and must return the Goods to the Seller on request.	12.11 Notwithstanding anything contained in this clause if the Seller is required by a law to accept a return then the Seller will only accept a return on the conditions imposed by that law.		
	(b) the Customer holds the benefit of the Customer's insurance of the Goods on trust for the Seller and must pay to the Seller the proceeds of any insurance in the event of the Goods being lost, damaged or destroyed.	13. Default and Consequences of Default		
	(c) the Customer must not sell, dispose, or otherwise part with possession of the Goods other than in the ordinary course of business and for market value. If the Customer sells, disposes or parts with possession of the Goods then the Customer must hold the proceeds of any such act on trust for the Seller and must pay or deliver the proceeds to the Seller on demand.	13.1 Interest on overdue invoices shall accrue daily from the date when payment becomes due, until the date of payment, at a rate of two and a half percent (2.5%) per calendar month (and at the Seller's sole discretion such interest shall compound monthly at such a rate) after as well as before any judgment.		
		13.2 If the Customer owes the Seller any money the Customer shall indemnify the Seller from and against all costs and disbursements incurred by the Seller in recovering the debt (including but not limited to internal administration fees, legal costs on a solicitor and own client basis, the Seller's contract default fee, and bank dishonour fees).		
		13.3 Further to any other rights or remedies the Seller may have under this contract, if a Customer has made payment to the Seller by credit card, and the transaction is subsequently reversed, the Customer shall be liable for the amount of the reversed transaction, in addition to any further costs incurred by the Seller under this clause 13 where it can be proven that such reversal is found to be illegal, fraudulent or in contravention to the Customer's obligations under this agreement.		
		13.4 Without prejudice to any other remedies the Seller may have, if at any time the Customer is in breach of any obligation (including those relating to payment) under these terms and conditions the Seller may suspend or terminate the supply of Goods to the Customer. The Seller will not be liable to the Customer for any loss or damage the Customer suffers because the Seller has exercised its rights under this clause.
